Positive Responses about School Safety

Positive Responses about Sense of Belonging

Positive Responses about Academic Press/Rigor and Teacher Quality

Positive Responses about School Leadership

Definitions

Similar Schools*: Similar schools are other MNPS schools serving the same grades with similar student populations and enrollment size.

ELA/Math Proficiency: The percentage of students in the school who met or exceeded expectations on 2024 End of Course or state exams.

TVAAS: The Tennessee Value-Added Assessment System measures the impact schools and teachers have on their students' academic growth.

Ready Graduate: The percentage of graduating students who demonstrated readiness for postsecondary education and/or a career after high school.

Postsecondary Enrollment: the percentage of 2023 high school graduates who enrolled in postsecondary education in the summer or fall of 2023.

TN2030: A set of goals rooted in research-backed metrics and data that are used to measure and predict student success, compiled and powered by the State Collaborative on Reforming Education (SCORE). For more information, please visit <https://www.tn2030.org/>.

* Note that the postsecondary outcomes included in the 77% goal include enrolling in college, accepting an apprenticeship, or enlisting in the military.

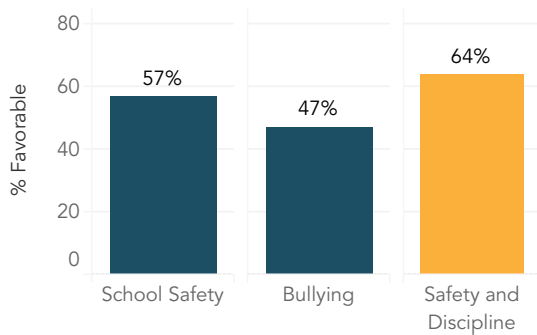

Detailed Breakdown of School Climate Survey Data

Percent favorable for each survey measure is comprised of the average of several survey questions within that topic area. Blue bars are Student Panorama Fall 2024 survey responses. Yellow bars are Teacher Panorama Fall 2024 survey responses.

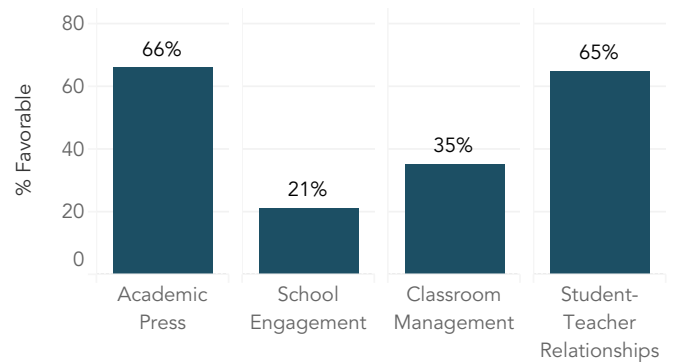

The percentages reported on page one of this report are the averages of the percent of favorable responses for each topic area within the category, weighted by the number of questions in each topic area. For more information on the Panorama survey, please visit:
